About This Publication

After the conclusion of Spring Training in 2018, I found myself looking over my through-the-mail (TTM) returns and while I got a few great ones, including Aaron Nola, I wondered if there was any way I could increase my odds at receiving more throughout the season and even at next year's spring training. So, I set out to document and summarize the entire #ttmsuccess hashtag on Instagram from the last several months, paying special notice to the spring training returns received February-March 31, 2018.

The sample I used included over 1100 successes and yields over 200 players.

While some people look over the recent returns on Star Tiger, or check other tracking sites, focusing on "real-time" results posted through Instagram proved to be invaluable, since I could actually SEE the returns and make notes of things such as ink color, personalization, jersey numbers and the inclusion of Bible verses. Even though these successes were from one particular social media site, the results are easily extrapolated as a whole - indicating the best prospects for a successful TTM return.

The result is this publication. You will find successes categorized by the "rank" of the players, how many successes were logged for them, as well as by team, personalization and Bible verses.

This "TTM Hot List" should help you navigate the 2018 baseball season, as well as 2019 Spring Training. Please keep in mind that trades happen, people get sent to the minors and called up. Double check the addresses using your favorite other websites before sending.

Here's hoping every day is a giant mail day. May your mailboxes be full, and your stamps Forever.
